## **DETAILED ACTION**

### ***Specification***

1. A substitute specification is required pursuant to 37 CFR 1.125(a) because the specification is not completely legible.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and must be accompanied by: 1) a statement that the substitute specification contains no new matter; and 2) a marked-up copy showing the amendments to be made via the substitute specification relative to the specification at the time the substitute specification is filed.

### ***Allowable Subject Matter***

2. Claims 25-48 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach the use of an acoustic horn with the specific structure as recited by the applicant, for example using a foldable sheet of material comprising the fold lines that define the specific panels as recited by the applicant that form a first non-planar panel bound by ~~a~~ctuate fold lines, where both the base end and the apex end are open.

Art Unit: 2837

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hardt, Ladendorf, Itakura, Hanausaka, Erath, Thomassian, Kirby, Coumbopoulos, Wilhelm, Gerson, Tomlin, Landon, Wheeler, and Krohn teach the use of bendable materials that produce horns.
